There are only two games you can play to unlock the characters, the first one lets you play as an sexy girl named Rin and the second one lets you play as a sexy dude named Levi. Rin has sexy lips, boobs and short hair and Levi has a beard and hair. And that's all you can really say about the games. All the characters are extremely short and the sex scenes that the games feature are not very sexy. For example, Rin's sex scene involves her using her tongue to do stuff to your penis while you have to jerk it. This means that if you want to see a sexy girl get naked and have sex, you have to wait until the very end 82157476af
